INTERIORS

DO YOU SEE YOURSELF HERE...?

"I know what I like but I don't know where to begin"

"I'm afraid its going to be too expensive"

"What should I keep?"

"More importantly what should I get rid of?"

"What do I need to buy?"

"Where can I get the best buy?"

Learn how a beautifully decorated, well organized home can positively impact your business and your life! In two short hours you will learn how to create a space that truly reflects your taste and fits within your budget!

Instant Interiors is to decorating, what speed dating is to romance! Decorating your house doesn't need to be a long, expensive process. Susan has figured out how to make it fast, fun, and affordable! This is a small, interactive class designed to send you home with a game plan that you can implement practically overnight. Space is limited to 8 registrants. In order to make the most of our time together, there is a homework assignment that you must bring. Please see instructions below.

You will go HOME WITH A GAME PLAN FOR YOUR ROOM WHICH WILL INCLUDE:

- Color palette
- Window treatments
- The **best** resource list
- Furniture placement
- Accessory selection
- Floor plan

IMPORTANT: HOMEWORK...Before you come to class...

Take four pictures of your room, one from each angle in the room. This is done by standing with your back against the center of each wall when you shoot. Then draw a rough floor plan and email both the photos and floor plan to Susan before class, so that we can hit the ground running!
