Re: Sale of my Mother's house

Dear John,

When I first spoke to you over the telephone, you sounded as though you were very interested in my mother's overall situation. That alone was of some comfort to us.

The move to Nova Scotia is exciting for my mother but all the details of the move are just overwhelming to her. Having to make these decisions without dad is difficult for her, particularly when you consider the timing so shortly after dad's passing.

Your concern for my mother and your practical assistance to her is most certainly appreciated by our family. With me not being able to be there for mom, at this time, made it even harder on all of us.

I doubt if my mother could have come through this very difficult time without both your professional and personal support, for which I shall always be most grateful.

Sincerely yours,

Paul Dent
