

PROJECT

- Kanata Eco-village is an innovative concept that blends traditions with modern trends.
- Ultimate escape in the heart of the lush Laurentian wilderness.
- Prestigious residential development on a large wooded property of 1,325 acres.
- Encompasses ten lakes, two of which are navigable.
- Seven models of sumptuous log homes to choose from.
- Lots of 1 to 5 acres each, allowing for privacy and natural environment.

DESIGN

- True Canadian Village of energy-efficient log homes.
- Luxurious comforts include: wine cellar, energizing baths, satellite television, surveillance via internet and other meticulous details that combine traditional design with modern amenities.
- Common areas and multiple services are available on site, indoors and outdoors.
- 4-sided central fireplace, cedar closets, collection of furniture reflecting the Louis XIII period.
- Respect for the local environment, preservation of the wild and graceful beauty of the land.
- Ecological solution ensure that 80% of the territory to remain in its natural state.
- Kanata Eco-village protects the wildlife in a 70 acres zone.
- Advance technology for wastewater treatment and Novoclimat certified.
- Exceptional energy efficiency with thermal coefficients of R30 and R40.
