The 24-year-old real estate office established a community fund in 1989. Each of the offices' 100 REALTORS® help contribute 70 per cent of the funding, while the office itself contributes the remaining 30 per cent.

"Our REALTORS® are proud of what their fund has accomplished over the years," says Len Doray, Managing Broker. "For us, giving back is win-win because we all live, work and play here, so anything that improves our community's quality of life helps us too."

The Fraser Valley Real Estate Board launched the REALTORS® Make Good Neighbours Awards in 2002 to honour community volunteering by REALTORS®. Recipients are selected based on the amount of time they spend volunteering, level of responsibility undertaken as volunteers and overall impact of their efforts within their communities.
