Dear Kevin,

Where has the time gone? It has been a busy year and I have now just found the time to write you a long overdue note of appreciation for your handling of the sale of our property on Ocean View Road during the latter part of 2010. As you know we put the property up for sale at a time when market conditions were somewhat challenging.

Throughout the process I was most impressed with the professionalism, skill and approach you took during the sales process. You came highly recommended by a number of mortgage brokers in town and I could see why when you showed me the initial sales brochure you put together to market the house. I was especially impressed with the photographic presentation you commissioned at the beginning of the process. You were highly responsive, patient and easy to talk to during the time in question. I particularly appreciated your factual approach as we were closing the sale.

Needless to say I have since recommended your services to a number of prospective buyers and sellers in the area and would return to you without hesitation for any real estate services I require in the future. Both Lynn and I thank you for a positive sales experience.

Sincerely yours,

Mark James Lofthouse

Chief Negotiator, Province of British Columbia
