by:

Our new Regal Collection has been launched in the community of Fireside. The Regal Collection offers the residents of Cochrane both affordability and luxury in a home while maintaining our reputation for superior quality, attention to detail and easy to work with staff. We are proud of this new collection. They are great homes that you will love to live in.

THE PERSONAL TOUCH

Kingsmith Homes has been building homes in Cochrane and the surrounding area for over 30 years. In that time we have learned a thing or two about good construction practice. We know that a lot of detail goes into building a great home and we know that because a great home is exactly what we build. For us, it starts with organization and accountability. We take a hands on approach to building your home and we see it as a team responsibility to ensure a successful project. Every hand, from office staff to field staff, supervise and inspect all of our homes repeatedly to maximize quality.

Our homes range from entry level all the way to large estate homes. We believe in providing people with the best quality and craftsmanship possible no matter what type of home you are building. In fact, it has not been uncommon for people to build with us multiple times as their needs and dreams grow and change.

Thank you for visiting our show homes.
